Experience

UI/UX Designer | Freelance

August 2025 - Present

- Crafted intuitive and visually engaging product experiences across diverse freelance and self-initiated design projects, blending strategy with creativity.
- Experimented with emerging AI-driven design tools to accelerate ideation, refine interfaces, and push modern UX workflows forward.

Intern, Zomato

May 2024 - July 2024

- Worked as Acquisition Ninja at Zomato, responsible for onboarding new restaurants onto the platform.
- Conducted meetings with restaurant owners, presented Zomato's value proposition, and closed successful partnerships.
- Gained hands-on exposure to user workflows, platform usability challenges, and real-world business constraints—shaping a strong product and UX perspective.

Projects

Bebop – Productivity Website UI

November 2025 | Tools: Aura, Figma, Gemini

- Designed a user-centric marketing website focused on conversion, usability, and visual clarity using modern UI patterns and hierarchy.
- Applied emotional design principles and brand storytelling to improve clarity, engagement, and call-to-action visibility.

Chorus — Fitness Website

November 2025 | Tools: Aura, Figma, Gemini

- Designed a conversion-focused fitness website using a minimal visual system to communicate comfort, clarity, and trust for beginners.
- Structured the layout to support user flow, readability, and decision-making through clean typography, spacing, and CTA hierarchy.

KBS Kota — Community Website

August 2025 | Tools: Figma

- Designed a user-centric community website emphasizing clarity, trust, and accessibility through clean UI and structured layouts.
- Focused on clear content hierarchy and intuitive navigation to make information easy to find and interact with.
